High-order conforming finite elements on pyramids

IMA J. Numer. Anal. 32, No. 2, 448-483 (2012).

MSC Classification: 65N30

Keywords: high-order; boundary value problems; conforming finite elements; pyramids

Review text:

The authors present a family of high-order finite element approximation spaces on a pyramid and associated unisolvent degrees of freedom. These spaces consist of rational basis functions. Conforming, exactness and polynomial approximation properties of these new finite elements are established.
